Hey Gabrielle,

William George connected us - said you're looking for a custom landing page for the Rave Thursdays event on April 23rd.

I went ahead and built a working preview:

marceausolutions.com/preview/rave-thursdays/

Take a look on your phone too - that's where most of your ticket buyers will be coming from.

What you're seeing:

- Custom design matching the rave aesthetic
- Live countdown timer (creates urgency)
- Clear \$20 presale vs \$30 door pricing
- Single prominent "Get Tickets" button
- Mobile-optimized and fast loading

\$350 - Landing page, countdown, mobile optimization, ticket link integration, live within 48 hours.

Our guarantee: If it doesn't meet your expectations, you don't pay.

Just reply with your ticket link (Eventbrite, etc.) and we'll have the final version live within 48 hours.

Hi there, William!

Thank you for sending over your work! I really like the landing page concept, especially the interactive countdown. I think that feature could be a great addition to our overall marketing strategy and help build anticipation around the event.

I understand from Will that this is a collaborative exchange, and I appreciate you being open to working together in that capacity. I'm excited to see how the landing page performs in terms of engagement and conversions.

For reference, the Eventbrite link is included below:

[Aura Promotions Eventbrite Link](#)

I also wanted to ask if it would be possible to adjust the theme to better match the aesthetic of our attached flyers. Keeping everything visually cohesive is important for our branding.

Looking forward to seeing the updated version. Please let me know if you need anything else from me in the meantime. Happy to provide any additional details that would help optimize the page.

Best,

Gabriellee

Hey Gabriellee,

Glad you like the countdown — that's going to build serious urgency as we get closer to the 23rd.

Got your flyers and the Eventbrite link. Here's what's updated:

- Eventbrite link is now connected to your Aura Promotions listing with tracking
- All event details pulled in — Elite Lounge, 10 PM, 21+, free parking
- Music genres, FAQ, social share buttons, and Google Maps all live
- Embedded Eventbrite checkout so buyers can grab tickets without leaving the page

I'm adjusting the color palette and visual style to match your flyers now so everything stays cohesive with Aura's branding. I'll have the updated version ready shortly and send over a link for you to review.

Hey Gabriellee,

Glad you like the countdown — that's going to build serious urgency as we get closer to the 23rd.

Got your flyers and updated the page to match your branding. The whole theme has been redesigned:

- Cream/off-white background with the same clean minimalist look as your flyers
- Black typography matching your aesthetic
- Stipple particle art inspired by the "you're being located" visuals
- Tico and DJ Sleaze in the lineup
- Corrected the time to 10 PM - 2 AM
- "Find Your Frequency / Escape Reality - Part 1" taglines
- Eventbrite link connected to your Aura Promotions listing with the checkout built right into the page
- FAQ, directions, social share buttons all live

Updated page: <https://marceausolutions.com/edm-nights/>

Take a look on your phone and let me know if you want any tweaks. Happy to dial anything in.

Hey Gabriellee,

Thanks for the kind words

Here's what I've done based on your feedback:

- Updated the Eventbrite link to the one you provided (Aura Promotions listing)
- Pulled in all the correct event details — Elite Lounge, 10 PM, 21+, free parking
- Added the music genres (house, tech house, Latin rhythms, bass-driven)
- FAQ section, Google Maps directions, and social share buttons are all live
- The "Get Tickets" button links directly to your Eventbrite with tracking

Regarding the flyer aesthetic — I saw the attachments but wasn't able to open them on my end. Could you send the flyer images as JPGs or share them via Google Drive? That way I can pull the exact colors, fonts, and vibe into the page so everything is visually cohesive with your branding.

In the meantime, the current page is running a dark neon theme (purples, cyans, magentas) which should be in the right ballpark for EDM. Happy to dial it in once I can see the flyers.

Updated page: <https://marceausolutions.com/edm-nights/>

Let me know what you think!

Hi Will!

My apologies for the delay, I realized the files didn't attach properly earlier. I'm sending the flyers over as JPGs now. Please let me know once you've received them.

Also, thank you for the updated link! I really like how the landing page directs users straight to the Eventbrite page. It's a great touch. I did notice that the Eventbrite pop-up doesn't fully load. It's not a major issue, but if possible, I'd appreciate having that adjusted for a smoother user experience (see attached for reference).

Thanks again, and let me know if you need anything else from me.

Best,

Gabriellee

Hi there, Will!

I wanted to reach out and see if there's anyway we can include this code, as I just created a google ads to the ste and it would help us measure the conversions from the campaign :

```
<!-- Google tag (gtag.js) -->  
<script async src="https://www.googletagmanager.com/gtag/js?id=AW-18066813493">
```

```
</script>
<script>
window.dataLayer = window.dataLayer || [];
function gtag(){dataLayer.push(arguments);}
gtag('js', new Date());
gtag('config', 'AW-18066813493');
</script>
```

The instruction details on how to paste code it in is as follows :
Below is the Google tag for this account. Copy and paste it in the code of every page of your website, immediately after the <head> element. Don't add more than one Google tag to each page.

Let me know if you're able to add it.

Best,

Gabriellee
