Working Together

Your guide to how coaching works, what to expect, and how we communicate.

Availability & Response Times

Channel	Response Time	Hours
SMS/Text	Within 4 hours	Mon-Fri, 8am-7pm ET
SMS (urgent/injury)	Within 1 hour	8am-9pm ET, every day
Email	Within 24 hours	Business days
Google Meet	Scheduled via Calendly	By appointment

I'm one person, not an app. I will always respond during business hours, but I'm not available 24/7. If something is genuinely urgent (injury, medical concern), text me and I'll prioritize it.

Weekly Cadence

Monday morning - You'll get a check-in text. Reply with:

- A rating from 1-10 (how your body feels)
- Any notes (soreness, energy, sleep, stress, wins)

Sunday evening - Your updated program for the next week goes into your Google Drive folder. I'll send you an email heads-up.

Monthly - We do a 15-minute Google Meet progress review. I'll send you a Calendly link to book it.

What I Need From You

- **Monday check-in response** - Even just a number is fine. This is how I know what to adjust.
- **Honest progress photos monthly** - Front, side, back. Same lighting, same time of day. These stay in YOUR Google Drive folder.

- **48 hours notice for reschedules** - Life happens, but please give me a heads-up.
- **Tell me when something isn't working** - A program only works if you can actually do it. I'd rather adjust than have you struggle in silence.

What's Included

- Custom training program (updated monthly or as needed)
- Nutrition protocol with macro targets
- Weekly check-ins via text
- Direct messaging access for questions between check-ins
- Monthly Google Meet progress review
- Peptide education and guidance (if applicable to your goals)
- AI-powered progress tracking and data analysis

What's NOT Included

- **24/7 texting** - I respond during business hours. Not at 2am.
- **Medical advice** - I'll educate you on peptides and refer you to qualified physicians. I don't prescribe anything.
- **Meal prep or grocery shopping** - I give you the targets and guidance. You handle the kitchen.
- **Peptide prescriptions** - Education only. Licensed clinics handle prescriptions.
- **In-person training** - This is online coaching. We use video for form checks.

Billing

- **$197/month**, billed on the same date each month
- **Cancel anytime** through your Stripe billing portal
- **No contracts**, no cancellation fees
- If your payment fails, I'll reach out. We'll figure it out together.

Communication Channels (What Goes Where)

Text/SMS - Use for:

- Check-in responses
- Quick questions ("Can I swap squats for leg press today?")
- Schedule changes
- Letting me know about injuries or setbacks

Email - Use for:

- Detailed questions that need a long answer
- Sending documents or lab results
- Anything you want a written record of

Google Meet - Use for:

- Kickoff call
- Monthly progress reviews
- Complex discussions that are hard over text

Google Drive - This is where:

- Your training program lives (PDFs)
- Your nutrition protocol is stored
- You upload progress photos
- Resources and guides are shared

How to Get the Most Out of This

1. **Follow the program as written** for at least 2 weeks before requesting changes
2. **Track your workouts** - reps, sets, weights. This data drives better programming.
3. **Be honest about compliance** - If you skipped 3 workouts, tell me. I can't help what I can't see.
4. **Ask questions** - There's no such thing as a dumb question about your own body.
5. **Trust the process** - Real results take 8-12 weeks minimum. We're playing the long game.
