

# ***TROUBLE SHOOTING YOUR BIZ***

# ***TROUBLESHOOTING YOUR BIZ***

- As we approach the end of PTBI 2.0 I want to share with you that not everything will go according to plan in the business as you start implementing
- There will be bottlenecks and constraints along the way as you grow

# ***TROUBLESHOOTING YOUR BIZ***

- What we've done so far is shown you the process of how to run your business, we taught you valuable skills that will earn you income, and now it's time to implement those skills
- It's one thing to learn the skills, its a whole new challenge to implement the skills

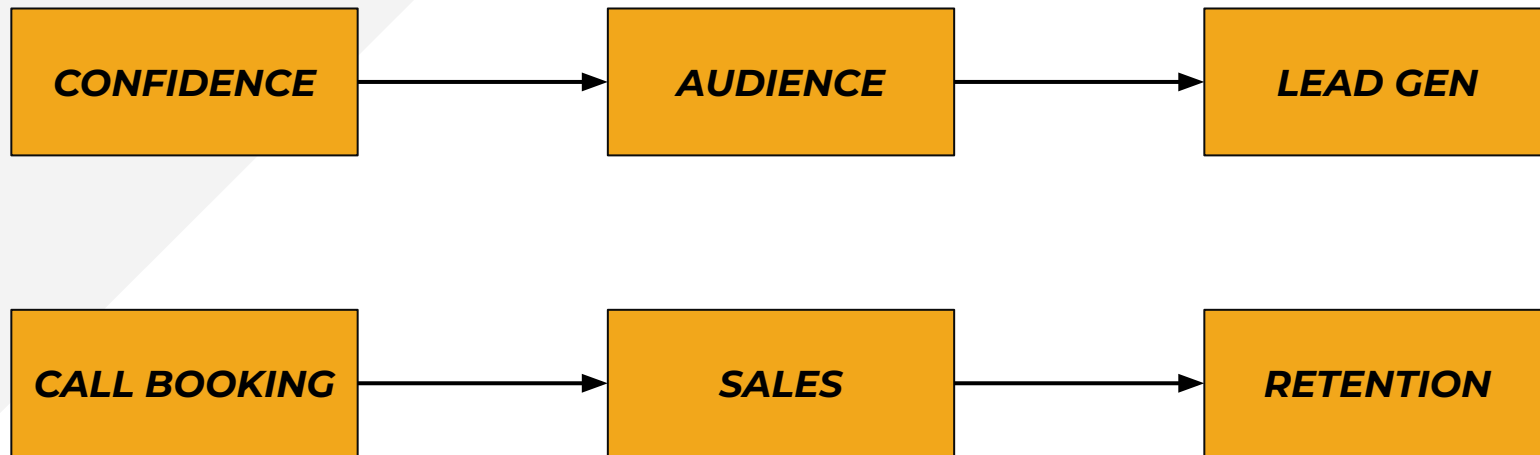

# ***TROUBLESHOOTING YOUR BIZ***

- As you start taking action you will find where your shortcomings in your business are
- In this lesson we are going to teach you how to identify and overcome the bottlenecks in your business as you grow

# ***THE BOTTLENECKS***

# ***TROUBLESHOOTING YOUR BIZ***

- In your business scaling from 0-10k/mo there are 6 potential bottlenecks that you could face
- Each bottleneck builds off of the last, so as you grow you may face each one in order
- If you can identify which bottleneck you are stuck at and focus to overcome them, you will continuously grow as a business owner until you beat them all

***BOTTLENECKS***

# ***TROUBLESHOOTING YOUR BIZ***

- The 6 different types of bottle necks:
- Confidence
- Audience
- Lead Gen
- Call Booking
- Sales
- Retention

# ***TROUBLESHOOTING YOUR BIZ***

- You will likely feel these constraints starting from the first one in order to the last
- If you are feeling a lack of confidence when showing up online, and putting yourself out in the world, then mindset is the bottleneck that's holding the business back

# ***TROUBLESHOOTING YOUR BIZ***

- To overcome this, continue to journal, set affirmations, practice positive self talk, set goals, and read books on how to build a stronger mindset
- This will help you build the confidence in yourself to consistently put yourself out there in the world

# ***TROUBLESHOOTING YOUR BIZ***

- If your bottleneck is audience, then you need to focus on creating content online that helps your following grow and building 1-1 relationships with the people you have in your audience already
- This is a slow and steady process but the stronger audience you build the more traction you will have online

# ***TROUBLESHOOTING YOUR BIZ***

- To overcome this become really good at creating content that people want to see
- Create shareable content that adds value to people
- You need a strong audience for a strong presence online, build the habit of being active on social media

# ***TROUBLESHOOTING YOUR BIZ***

- If your bottleneck is lead gen, then focus on content and outreach
- Content is important because it positions you as an authority, which will make getting responses easier
- Outreach will help you prospect new potential clients

# ***TROUBLESHOOTING YOUR BIZ***

- To overcome this, build a habit of doing lead gen every day on new sources online to build a playbook of quality lead gen sources
- Consistently test new scripts, new pages, new people to message until you find a system that works

# ***TROUBLESHOOTING YOUR BIZ***

- If your bottleneck is call booking, meaning you can start conversations but cant book calls, then practice being more direct with your script
- Practice your script with a partner to build confidence being direct in the conversation
- Practice offering value for your call to get more people to say yes

# ***TROUBLESHOOTING YOUR BIZ***

- If your bottleneck is sales, then practice your sales calls with a partner, practice handling objections with a partner, memorize your scripts, and record your sales calls for review
- To overcome this you will simply need practice building confidence on the phone and pushing prospects out of their comfort zone

# ***TROUBLESHOOTING YOUR BIZ***

- If your bottleneck is retention, meaning you're having trouble keeping clients long term, then you need to work on creating a strong community and setting new goals for your clients
- Practice resign calls and get feedback on how to create a better experience for your clients from your clients

# ***TROUBLESHOOTING YOUR BIZ***

- These bottlenecks will take time and practice to overcome but the first step is to identify where in your business you are getting stuck
- Once you recognize where the bottleneck is you can dive deeper on developing those skills until it is no longer an issue

# ***TROUBLESHOOTING YOUR BIZ***

- This process will be a rinse and repeat process because with each new level in your biz, you will face new challenges

# ***TROUBLESHOOTING YOUR BIZ***
