

BREAK THROUGH LIMITING BELIEFS

BREAK THROUGH LIMITING BELIEFS

- Limiting beliefs are negative thought patterns that we have that hold us back from achieving a desired outcome
- For most people these limiting beliefs come from their childhood, upbringing, and experiences
- Limiting beliefs are beliefs that do not serve you
- They do not provide benefit to you

BREAK THROUGH LIMITING BELIEFS

- Most peoples limiting beliefs are also not true
- For every belief that you may have about why you cant achieve your goal, there is an opposite belief about why you can
- When it comes to overcoming limiting beliefs you have to re-wire your thought patterns
- This will take work (like therapy)

BREAK THROUGH LIMITING BELIEFS

- Overcoming your limiting beliefs will not be an overnight fix, we have provided a framework to help you do the work
- By doing this, you'll be able to break free from the old thought patterns that have kept you from fully achieving your dreams

BREAK THROUGH LIMITING BELIEFS

- If you struggle with limiting beliefs I recommend doing this exercise on a daily basis with the specific beliefs that are challenging for you

THE WORK

QUESTION

IDENTIFY

REWRITE

AFFIRM

BREAK THROUGH LIMITING BELIEFS

- Step 1: Question
- Step 2: Identify
- Step 3: Rewrite
- Step 4: Affirm

BREAK THROUGH LIMITING BELIEFS

- The first step is to question your thought patterns
- It is difficult to know what beliefs are holding you back, so you will need to investigate
- This can be difficult at first as you might not realize certain beliefs that you have are actually causing harm

BREAK THROUGH LIMITING BELIEFS

- The easiest way to do this is to start consciously thinking about your thoughts as they present themselves throughout the day
- If you come up with an excuse, or a reason why you can't be successful, stop and ask yourself why that is your belief

BREAK THROUGH LIMITING BELIEFS

- Question each belief that you have and ask yourself, is this thought pattern helping me reach my goals? Or making it more difficult to reach my goals?
- Examples: “I dont know enough”, “There’s too much competition”, “Successful people are bad people”.

BREAK THROUGH LIMITING BELIEFS

- You might not yet realize your subconscious thoughts and how they might be holding you back
- Questioning your beliefs will allow you to evaluate and identify the limiting beliefs that you have
- The next step is to identify the thought patterns that are limiting beliefs

BREAK THROUGH LIMITING BELIEFS

- If you realize that a thought you've been having hasn't been serving you and your growth, then write it down
- We have given you a worksheet to help you with this that we will show soon
- Write down as many limiting beliefs you can find

BREAK THROUGH LIMITING BELIEFS

- If you want bonus points you can write down where these beliefs came from (your parents, friends, school, etc.)
- This helps you detach yourself from the beliefs as you realize they are not actually your beliefs
- Which leads us into the next step, choose your new beliefs

BREAK THROUGH LIMITING BELIEFS

- One of our freedoms of being human is that we are able to choose our own beliefs
- When we identify what beliefs are not serving us, we can then choose what beliefs will take its place
- The next step is to rewrite your beliefs

BREAK THROUGH LIMITING BELIEFS

- For every limiting belief that you identify, tell yourself a new story of a new belief that will align with your goals
- For bonus points give yourself a reason why you believe each belief
- This will add proof subconsciously to make your new belief more believable

BREAK THROUGH LIMITING BELIEFS

- Example:
- “I dont have time” → “I can make time”
- “I dont know enough” → “My knowledge can help people”
- “There’s so much competition” → “There’s more than enough to go around”

BREAK THROUGH LIMITING BELIEFS

- The last step is to affirm your new beliefs
- Affirmations come in the form of owning your beliefs in the present tense as if it's already your identity
- When you own your new beliefs as part of your identity in the present tense you will subconsciously re-wire your thought patterns to adopt these beliefs

BREAK THROUGH LIMITING BELIEFS

- When this happens your old limiting beliefs will dissipate and you will be transformed
- Now this sounds woowoo, but it works
- The most successful people in the world invest into their mindset, breaking through their limiting beliefs, and creating a new version of themselves

BREAK THROUGH LIMITING BELIEFS

- This is not an overnight fix either
- Your thought patterns are deep rooted, this will need to become a daily practice
- For extra difficult thought patterns, professional help may be needed
- It is common for entrepreneurs to seek the help from therapy to overcome their negative thought patterns, be willing to do the work

BREAK THROUGH LIMITING BELIEFS

- To help, we created a worksheet that you can use to template your journaling sessions
- You can download it as a pdf below and use this framework to guide your daily practices.

QUESTION

IDENTIFY

REWRITE

AFFIRM

BREAK THROUGH LIMITING BELIEFS

- Step 1: Question
- Step 2: Identify
- Step 3: Rewrite
- Step 4: Affirm

BREAK THROUGH LIMITING BELIEFS

- What we are going to do now is go over some common limiting beliefs that coaches face when getting started to show you how you can rewrite them to serve you

BEING TOO SALESY

BREAK THROUGH LIMITING BELIEFS

- The thought “I dont want to be too salesy” is a limiting belief because it holds you back from building conviction in your offer
- This thought pattern comes from not wanting to make other people uncomfortable
- “If I’m too salesy other people wont like me”

BREAK THROUGH LIMITING BELIEFS

- To rewrite this thought pattern tell yourself, “I am here to help others”
- When you remind yourself that your purpose is to add value and change the lives of others, you will have the conviction to bring your offer to new people

BREAK THROUGH LIMITING BELIEFS

- This belief will serve your purpose and make it easy for you to reach out to new people and sell with conviction that you can change their lives
- The thought pattern, “I dont want to be salesly” makes you scared and timid
- The thought pattern, “I am here to help others” makes you confident and convincing

BREAK THROUGH LIMITING BELIEFS

- Which version of you do you think will win the client over?
- For every limiting beliefs that holds you back, there is an opposite belief that will serve you

COMPARISON /COMPETITON

BREAK THROUGH LIMITING BELIEFS

- Comparison is the thief of joy, and while its easy to say “dont compare yourself”, its much harder to practice
- A good tip to minimize comparison is to mute, block, and delete any social media platforms that effect your mindset negatively
- This includes your friends (mute)

BREAK THROUGH LIMITING BELIEFS

- It is very difficult to feel good about the progress you're making when you are constantly comparing yourself to other people
- To rewrite this, you have to stay focused on your story, your progress, and your journey
- No one else has your experiences or your story this makes you uncomparable

BREAK THROUGH LIMITING BELIEFS

- Instead of thinking “there’s others who are so far ahead of me”, think “I am so much further than where I’ve been and no one else has this same experience”
- This new thought pattern serves you by reminding you that you are valued in the market place and you are making progress

SCARCITY MINDSET

BREAK THROUGH LIMITING BELIEFS

- Scarcity mindset is the belief that theres not enough to go around
- If one coach is successful it means that another cannot be
- This thought pattern will hold people back from trying because they feel their effort is a zero-sum game meaning that its either win or lose

BREAK THROUGH LIMITING BELIEFS

- This isn't the case in business, there is more than enough to go around for everybody
- One person's success does not mean anything to you
- Your success is only tied to your actions and beliefs

BREAK THROUGH LIMITING BELIEFS

- Remind yourself that the world is big and full of opportunities
- If you find that someone else's success affects you tell yourself, "There's opportunity everywhere, success is abundant and for everyone, only I am in control of creating success for myself"

BREAK THROUGH LIMITING BELIEFS

- This new belief will remind you that while other people might be winning, it doesn't effect your outcome for success

MARKET SATURATION

BREAK THROUGH LIMITING BELIEFS

- Market saturation is another common limiting belief coaches have
- They think that there's too many fitness coaches or online coaches in the space for everyone to be successful
- This ties into having a scarcity mindset, but theres more to it

BREAK THROUGH LIMITING BELIEFS

- It is really easy to be fooled to think the market is saturated when you are fully involved in the market
- When you go to the gym you are surrounded by fit people, so in that small room it may seem that theres alot of fit people...

BREAK THROUGH LIMITING BELIEFS

- But when you step outside in the real world you'll find that majority of people are not in shape
- Your social media is probably flooded with fitness and workout content all over your explore page
- It might seem like fitness is everywhere and inescapable...

BREAK THROUGH LIMITING BELIEFS

- But if you were to look at your moms social media algorithm it's likely that fitness is nowhere to be seen
- It's easy to assume the market is saturated when its all you see all day, but you are living in a bubble
- The bubble is very small relative to the world

BREAK THROUGH LIMITING BELIEFS

- On top of this online coaching is growing now more than ever
- As younger generations get older they are adopting online coaching as the go to solution for fitness
- This means more and more people are looking for online coaches

BREAK THROUGH LIMITING BELIEFS

- Instead of thinking “the market is saturated there’s no room”, think “the market is growing and there’s opportunity for everyone”
- This new belief will help you become abundant and grow with the market

CHAPTER 1

CHAPTER 2

BREAK THROUGH LIMITING BELIEFS

- Some people think that because they don't know everything, then they aren't ready to help people
- They feel like they have to know the answer to every single thing about their niche and if there's anything they're unsure about it means they are not qualified

BREAK THROUGH LIMITING BELIEFS

- The truth is you only have to be 1 step ahead in order for you to help people
- Lets assume that life is a chapter book of 10 chapters
- You do not need to finish the book in order to help people
- You only need to be one chapter ahead

BREAK THROUGH LIMITING BELIEFS

- Meaning if you are on chapter 3 then you can help people go from chapter 1 to chapter 2 to chapter 3
- For them this is life changing
- It's also okay to not know the answer to some questions, you are allowed to dig into the answer yourself if you're unsure

BREAK THROUGH LIMITING BELIEFS

- Don't discredit the knowledge you possess
- What you might take for granted is life changing for others
- Think about the first time you learned about nutrition and training, there are new people every day that are learning that for the first time
- Might as well be you teaching it

BREAK THROUGH LIMITING BELIEFS

- You have to value the knowledge you do have and understand that its okay to not know everything right now
- Instead of thinking “I dont know enough”, think “I may not know everything but thats okay. I will learn and what I do know will change lives”.

BREAK THROUGH LIMITING BELIEFS

- This belief will help you feel confident in helping people and in the knowledge you are putting out into the world

THE CATALYST

BREAK THROUGH LIMITING BELIEFS

- One thought pattern that will hold you back is questioning why others would listen to you
- “There’s so many bigger fitness pages why would someone follow me”
- Just because you follow certain influencers and coaches doesn't mean that your potential clients do too

BREAK THROUGH LIMITING BELIEFS

- For your potential clients, YOU are the one they follow
- And they follow you for a reason; they know, like, and trust you
- In situations like these, you are the catalyst for your ideal client online meaning you are the one bringing information to them

BREAK THROUGH LIMITING BELIEFS

- Think of yourself as a source of information
- You collect information out in the world of fitness and filter out the truth from the false
- You present that information in a way that's digestible to your potential clients
- They are following you because they trust what you have to say

BREAK THROUGH LIMITING BELIEFS

- Plus you are saving them time from going out and gathering that information all for themselves
- You are providing value by being the catalyst of information for your potential clients
- They are not following who you're following, they're following you

BREAK THROUGH LIMITING BELIEFS

- Instead of thinking “why would someone follow me?”, think “my potential clients are following me because they trust me”
- This belief makes it easy to show up daily for your people

FEAR OF OTHERS

BREAK THROUGH LIMITING BELIEFS

- When you start something new, like starting a business, there is a natural fear of what people will think
- A big fear is that people will disapprove or even react negatively
- This limiting belief holds you back from doing what is aligned with you because of what someone else thinks

BREAK THROUGH LIMITING BELIEFS

- Truth is, most people aren't thinking about you as hard as you might think and most people don't care
- At the end of the day people are thinking about themselves, their lives, and their problems
- Playing it small for them is doing yourself a disservice as you are only hurting yourself

BREAK THROUGH LIMITING BELIEFS

- Plus, there are people out there that will find you impressive and will want to support
- When you walk down a boardwalk and see a juggler putting on a show, it is likely that you will stop and watch
- Its not that you care about juggling, but you are impressed with the skill and talent the juggler has

BREAK THROUGH LIMITING BELIEFS

- And even though you might not care about juggling, seeing someone's passion for a craft is inspiring
- This is how others will react to you sharing your passion online
- They will find it impressive and inspiring

BREAK THROUGH LIMITING BELIEFS

- Some will find it so valuable they hire you, some will support you from a distance, and very few will react negatively
- 9/10 when someone reacts negatively its because they projecting something their insecure about in their own lives
- Best thing to do is ignore them

BREAK THROUGH LIMITING BELIEFS

- So the truth is most people will either support you or doesn't care either way
- The few people who react negatively wouldn't have been your clients anyway so why accommodate for them
- Now when it comes to actually creating content, people tend to psyche themselves out

BREAK THROUGH LIMITING BELIEFS

- Its really easy to belittle yourself and talk yourself out of showing up when you are thinking about the wrong people in your mind
- When you are posting if you think about someone who is superior to you, you might feel inadequate and will hold back from posting
- People like older siblings, old friends, authorities in the industry, etc.

BREAK THROUGH LIMITING BELIEFS

- What you need to do here is control who you are thinking about
- When you switch your perception to the people who are trying to help, you become empowered knowing how far your knowledge will go
- People like friends from work, old classmates, people on social media asking you questions

BREAK THROUGH LIMITING BELIEFS

- One frame of mind makes what you have to share feel small, the other makes what you have to share life changing
- Be intentional about who you keep in mind when you are sharing on social media, this will make or break the difference with how you show up

BREAK THROUGH LIMITING BELIEFS

- Instead of thinking “other people are going to make fun of me”, think “sharing my passion will inspire people and change lives”

FINANCIAL SECURITY

BREAK THROUGH LIMITING BELIEFS

- People have a misconception about financial security
- They believe that having a degree and job means they are financially secure
- When recently we found that job security can be eliminated in seconds

BREAK THROUGH LIMITING BELIEFS

- Are you really secure when your income is based to someone elses decision to keep you hired?
- Or that your income is fixed to an hourly rate or salary?
- There is no security in having your income in the hands of someone else

BREAK THROUGH LIMITING BELIEFS

- On the flip side, you possess a valuable skill set that helps other people
- With that skillset you are able to produce an income for yourself
- Learning how to market your skillset and sell your skillset will enable you to produce income for yourself on demand

BREAK THROUGH LIMITING BELIEFS

- Understanding how to run a business is an income producing skill
- Meaning that you will be able to generate income for yourself whenever wherever
- By having an income producing skillset, you are more financially secure than someone who has a 9-5 job (so long as you put in the work)

BREAK THROUGH LIMITING BELIEFS

- Instead of thinking “I’m not financially secure”, think “I have the skillset to create stability for myself”
- This will remind you that you are in control of your financial situation and stability is created through your skillset

GOING ALL IN

BREAK THROUGH LIMITING BELIEFS

- Going all in is the mindset of committing 100% to a goal
- There's a saying that committing 100% is easier than committing 98%
- The reason is because with 98% there is a 2% margin of error, which means that there are inconsistencies with your actions

BREAK THROUGH LIMITING BELIEFS

- Take smoking for example
- At 98% when is there room for error? Where do you draw the line?
- With 2% of wiggle room you open up the door for making decisions and making decision will lead to fatigue

BREAK THROUGH LIMITING BELIEFS

- At 100% the decision is already made
- There's no going back or forth. Its black or white
- You're doing this, or you're not
- This eliminates room for error in making decisions

BREAK THROUGH LIMITING BELIEFS

- There's a famous story of a spanish conquistador who was colonizing mexico
- During the attack the spanish troops wanted to retreat.
- Because there was a backup plan they felt there was a way out

BREAK THROUGH LIMITING BELIEFS

- The man leading the charge set all of their boats on fire to eliminate their backup plan
- Doing this forced the spaniards to fight for their lives with no other choice but to win
- This is the mindset needed in order to succeed
- This forces you to face the challenges head on rather than retreating

BREAK THROUGH LIMITING BELIEFS

- Instead of thinking “what if this doesn't work”,
think “I am going to make this work”

BREAK THROUGH LIMITING BELIEFS

- Building a strong mindset takes consistent work
- The exercises given to you in this module will help, but you will need to make it a daily routine to truly rewire your thought patterns for success

BREAK THROUGH LIMITING BELIEFS

- Lesson Complete
