

PTBI CONTENT RUBRIC:

Below is a rubric that you can use to grade your content. There are 8 categories, ideally you would want to get at least 18 points out of the potential 24 per post in order to make sure it connects to the ideal client while being of high quality.

The Key to creating a solid post that would do well on this rubric:

Quality caption, quality content / photo, content looks good on the FEED, viewers gain something from content, content is shareable, content is audience specific, visually appealing and brings the potential client 1 step closer to achieving goals.

Category	3 points	2 points	1 points
Quality Caption	Caption deeply connects with ideal client & answers a question	Caption somewhat connects with ideal client	Caption is pointless or provides little value to ideal client
Quality Content or Photo	Clear quality photo, good lighting, easy to read if infographic	Quality of photo could improve but it's still attractive. If Infographic, perhaps disorganized / difficult to follow or read.	Photo is of poor quality.
Looks good on feed	On the feed, the subject is perfectly aligned on the cover and looks nice. Viewers can tell what the photo / infographic is from the feed.	Cover photo is alright on the feed but perhaps subject is not perfectly centered (head is cut off on feed) or infographic font too small to distinguish from feed.	Cover photo is tragic. You cannot tell what the photo / video / infographic is even from the feed.
People gain from content	Viewer gains at least 2 of these : entertainment, education, seeing you as credible, inspiration, motivation,	Viewer gains only 1 of these : entertainment, education, seeing you as credible, inspiration, motivation,	Viewer gains nothing.
Shareable (this is ideal if you are trying to expand your reach & audience)	Viewers may have a desire to share visually appealing content because it is	Viewers may relate to content or deem it educational or funny but it is not shareable	Post was not created with the intention to be shareable. Post does not appear to

	motivating, educational, funny, relatable.	because of a lack of visual appeal.	be something someone would “share” on IG story (ex: explicit content)
Audience Specific	Wording is audience specific, caption is ideal client specific, photo is something ideal client would have interest in	Caption has ideal client in mind however it doesn't use proper phrasing client would. (ex: GET JACKED vs toned for females)	Caption is not audience specific at all
Visually Appealing	Post is clean and aesthetic.	Post is messy, perhaps there is a messy background, awful filter (people should never be orange), infographic is just plain ugly	Visually unappealing all together.
Provides a Solution to a Problem brings Client 1 step closer to goal	Provides answer, perspective and knowledge to at least 1 problem / question ideal client is facing in their journey. Allows clients to make a step forward through knowledge gained. Ideally makes YOU look like you can help clients.	Brings answers to common questions / problems the ideal client is facing but not in depth enough that it is applicable for ideal clients.	Doesn't provide any sort of answer / solution.

IDEAL CLIENT CONTENT QUESTIONS:

These questions will help guide you when creating content as you will have a much deeper understanding of WHO you are creating the content for. The answers to these questions should be DEEP and go far beyond a simple “Becky wants to have abs” but rather “Becky wants confidence, to feel worthy, to not feel insecure at all times, to achieve food freedom ect”.

List as many answers to these questions as possible. Every single idea you write can be turned into a single piece of content. This exercise will produce a massive amount of ideas for you to create.

Example of Assistant coach Jen going through this exercise to give you insight into how deep you should be narrowing down your ideal client:

<https://www.facebook.com/100002137693507/videos/357289749213288/>

- **Where do they hangout offline and online?**
- **Goals: What is the goal that your ideal client has, what is the outcome they want to change?**
- **Pains: what are the pains your ideal client is experiencing right now as a result of not achieving their goal?**
- **Fears: what is your ideal client fearful of if they don't reach their goal?**
- **What are they tired of?**
- **What are their barriers?**
- **What do they need most to be successful?**
- **What fitness and/or nutrition MYTHS do they believe that are holding them back?**
- **What are they words THEY use about their goals?**

CONTENT PROMPTS:

We have provided content prompts to help you create content. Below are a list of topics that you can use as inspirations to write/speak about that will be relevant to your ideal client in your own way.

You can use these prompts to get your mind thinking and come up with any other topics that are similar.

Or you could even go down the list and create a piece of content based off of each one.

Use this prompt as a challenge and a guide for when you are stumped on content.

Content pieces are not limited to just captions, these prompts can be created as a reel, igtv, instagram story, facebook post, youtube video, email, etc. There are no limits!

What myths do your ideal clients believe that's holding them back from their goals?

At what moment did you realize your method was the answer?

What is your fitness journey?

What insecurities did you struggle with before your transformation and how did you overcome them?

What goals do you help people reach?

What are your top fitness travel tips?

What mindset do you believe is the best for your client to reach their goals?

Why do you love fitness?

What is your favorite moment in your client transformations?

What advice would you give to a beginner looking to start working out?

How do you overcome gym anxiety?

How do you overcome comparison?

What advice should people watch out for?

What are the top components to achieving your fitness goals?

What is your approach to nutrition? Where did you learn it? Why should others follow this method?

What is your approach to training? Where did you learn it? Why should others follow this method?

Why should people invest in a fitness coach?

What benefits does living a healthy lifestyle bring?

Why do most people fail their fitness journey? What advice would you give someone to prevent failure?

What are the biggest tips you have for a successful fitness transformation?

Paint a picture for what its like once your ideal client has achieved their goal

What freedoms will your ideal client feel after their transformation

Why should your ideal client care about their health

What common objections do you get from people not wanting to start their fitness journey? And how would you solve them?

How do you deal with maintaining a fit lifestyle even when those around you might not?

What keeps you consistent?

How has a healthy lifestyle impacted other areas of your life?

If you could give yourself advice at the start of your fitness journey what would it be?

What have you been seeing a lot of within the fitness world that you don't agree with?

What type of biofeedback do you look at and why is it important for your clients?

What do you think has lead to your success in you journey & the success of your clients?

What are supplements?

What supplements would you recommend to your clients?
