

LEAD GEN **101**

LEAD GEN 101

- Welcome to Lead Gen 101
- In this module we are going to teach you how to market your offer online to generate consistent leads for your coaching business
- In this lesson specifically we are going to cover the basics of lead generation before diving into the action steps followed in this module

LEAD GEN 101

- In business, a lead is someone who is a potential customer (also known as prospect)
- Someone who is interested in your offer and qualified but hasn't yet purchased
- Lead Generation is the process of creating new potential customers

LEAD GEN 101

- Lead gen is important because it creates potential for new sales and new clients
- With a ton of leads your business will be thriving as those leads will turn into sales calls
- Without any leads, your business will be dry with no one to help

LEAD GEN 101

- Lead generation consistently creates new leads so that you can have more opportunities to close clients
- A successful business always has new leads coming through the sales process to consistently sign new clients

LEAD GEN 101

- The amount of leads you have and the status of those leads are referred as your pipeline
- A full pipeline is a pipeline full of leads in different stages of the sales process
- A empty pipeline is a pipeline with no new potential customers

LEAD GEN 101

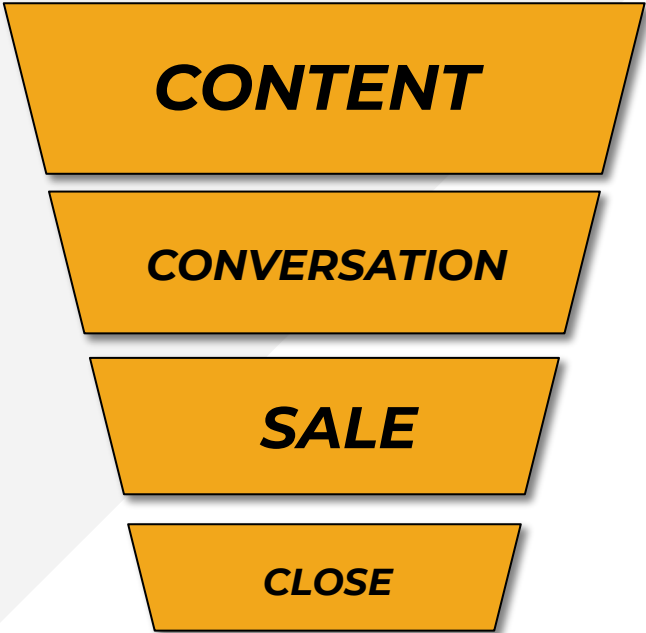

- An empty pipeline is a dangerous place to be as this means you have no new opportunity to make money
- A full pipeline is the goal as you will have the opportunity to make money
- This module is going to show you how to consistently create a full pipeline of leads

SALES FUNNELS

LEAD GEN 101

- A sales funnel is the journey of a prospect leading to becoming a customer
- In each step of the sales funnel, the prospect comes closer and closer to becoming a paying client
- Content is the first step in the sales funnel

LEAD GEN 101

CONTENT

CONVERSATION

SALE

CLOSE

- Sales Funnel:
- Social Media Content → Conversations
- Conversations → Sales Process
- Sales Process → Close

LEAD GEN 101

- The reason its called a sales funnel is because there are fewer and fewer prospects that make it to each step
- All you need to do to sign clients is understand how this funnel works and how to get as many people as possible into this funnel to increase the amount of closes at the end

LEAD GEN 101

- This module of lead generation is going to cover the first two steps of this funnel
- Content is the first step of the sales funnel
- Theres a saying online, “Content is King”
- Thats because content = attention
- The more attention and eyeballs you can bring to your page, the more people you put through your funnel

LEAD GEN 101

- Creating content is all about bringing as much attention to your offer as possible
- The more content you create, the more people you bring to your page, the more people you start conversations with, the more people enter your sales process, the more clients you sign

STRATEGIES VS TACTICS

LEAD GEN 101

- What I'm going to teach you in this module are lead generation strategies, not tactics
- Strategies are principles that work throughout time and will last forever
- Tactics are flash in the pan tricks that are ever evolving

LEAD GEN 101

- Most people focus on tactics for lead generation and growth online which is why they are constantly looking for the next best thing
- Tactics include things like growth hacks, algorithm hacks, or anything else that might work for a short period of time

LEAD GEN 101

- What you want to focus on instead are strategies that won't ever change. This way you don't need to constantly be looking for the next hack
- Strategies include things like creating good content, copywriting, calls to action, and starting conversations

LEAD GEN 101

- This module will contain lead generation strategies that will stay true throughout social media's ever changing platforms that way you have the tools to always add leads to your pipeline

TOP SOCIAL MEDIA PLATFORMS

LEAD GEN 101

- Right now there are a few key social media platforms that dominate the online space with new platforms emerging every day
- By understanding the strategies of lead generation you will be able to use any platform that arises to your benefit

LEAD GEN 101

- Each platform has its own unique behaviors and culture
- You do not need to be on every single platform to build a 6-figure business, you only need to be on 1-2
- Instead of overwhelming yourself with too many platforms, go deep and master 1 with 1 backup.

INSTAGRAM

- Great for connecting with new audience members
- DM feature is extremely useful for lead generation
- Can share the real side of you and your offer in real time
- People use instagram to learn about other people

FACEBOOK

- Great for building communities
- Facebook groups work well to host all current clients and nurture leads
- Can be used for lead generation
- Tends to have an older demographic

YOUTUBE

- Great for education and building trust with your prospects through video content
- Can be used to handle objections and indoctrination
- Content turns into leverageable assets that last long term

TIKTOK

- Great for growth online
- Can use growth to flow into other social media platforms
- Still new at the time of this course creation so may evolve over time

EMAIL

- Great to nurture leads long term
- Serves as a great back up in case social media platforms shut down
- Can send content directly to someone's inbox
- Still widely used

LEAD GEN 101

- Eventually you will want to be on all platforms, but to keep it simple focus deeply on 1
- I recommend instagram because the dm feature allows you to connect with users easily
- Now that weve covered what lead generation is and why its important lets talk about what youre going to learn in this module

LEAD GEN 101

- First, we are going to build your website to add to all your social media platforms to allow potential clients to reach you
- Next, we are going to set up your social media platform to be positioned correctly in your market place

LEAD GEN 101

- Then we are going to cover content creation for growth and conversion: the types of content you should be posting, how to create it, and how to use our content creation tools in the process
- Lastly we are going to teach you our push/pull lead gen methods to bring people into the next step of the funnel

LEAD GEN 101

- Push/Pull lead gen methods including: Calls to Action, DM Outreach

LEAD GEN 101
